AMOUNT OF COVERAGE

Take note that the vehicle takaful coverage taken must be according to the value of the current market price. If the sum of the coverage is not in accordance with the market value price, according to the “average condition” (ME Endorsement) that is in this Certificate, the Participant will have to bear part of the cost of loss incurred. The basic calculation is as follows: -

Insurans Islam General Takaful Sendirian Berhad Liability:

$$\frac{\text{Amount of coverage} \times \text{Cost of loss}}{\text{Actual value}}$$

Example:

Coverage amount	: B\$20,000
Actual value	: B\$50,000
Cost of loss	: B\$ 5,000
(after deduction of excess) IIGT liability	B\$2,000

If this happens, this means that the liability or Insurans Islam General Takaful Sendirian Berhad’s payment will be B \$2,000 only, while the rest will be borne by the Participant himself. Hence the Participant must make sure that the vehicle coverage is in accordance with the current price value.
